Preface

Since 2019, a group of leading practitioners and academics has gathered at the Japanese Embassy in Washington, DC--and then remotely when circumstances required--for an important dialogue aimed at furthering the rule of law and cooperation among nations in the areas of justice and white-collar crime. This year's 4th Annual White Collar Crime Workshop, co-sponsored by Shinshu University, resumes again in person at the Japanese Embassy to continue that discussion among experts from Japan, the United States, the United Kingdom, and other leading countries.

The conference this year includes esteemed panels on important topics such as the investigation and resolution of matters involving business organizations, whistleblowers, cybersecurity matters, and compliance programs and corporate culture. The goal for these discussions is to advance the common principles of justice that we share, and to build the personal friendships and relationships that strengthen these efforts.

I have been honored to be part of this dialogue and hope that the discussion proves as rich and valuable as in years past.

Mark Filip
Partner, Kirkland & Ellis

Greeting Message from Project Organizer

Due to the increased complexity of society, the internationalization of corporate activities, and fast-paced developments and technological changes, corporate crimes and related governance issues have also become more complex and borderless than ever. It is therefore of prime importance to discuss these issues internationally from the various perspectives provided by practitioners and academics.

The workshop aims to provide a global platform to discuss corporate governance and compliance-related issues faced by companies worldwide. We started this project in 2019 at the Japanese Embassy in Washington, D.C. Since then, we have continued this effort despite the difficulty and uncertainty resulting from the pandemic.

I am delighted that we will be able to return to the Japanese Embassy in Washington, D.C. to hold the fourth workshop as an in-person event this year. I would like to express my profound appreciation to the speakers of each session, the staff, the audience, and the Japanese Embassy and Shinshu University for supporting this project. I hope our fourth workshop will be informative and helpful to each of you.

Warm regards,
Daisuke Fukamizu
Research Professor at Shinshu University,
Partner, Nagashima Ohno & Tsunematsu
